RetCalc | My Dashboard

retcalc.app/dashboard

One place for your money and your retirement plan.

A free RetCalc account turns one profile into 15 tabs: net worth, pay, taxes, spending, saving, and a retirement plan tested against every market since 1926. Update your balances each month or quarter and see where you stand.

15	14	Up to 8	100 yrs	66	$0
tabs, all from one profile	tools inside, your numbers filled in	setup steps, each one skippable	of monthly market history	lessons in 8 tracks	no ads, no bank logins

1 One profile, every tab

Setup takes up to eight short steps, each one skippable. Every figure is set in one place, so a change on any tab re-runs the whole plan.

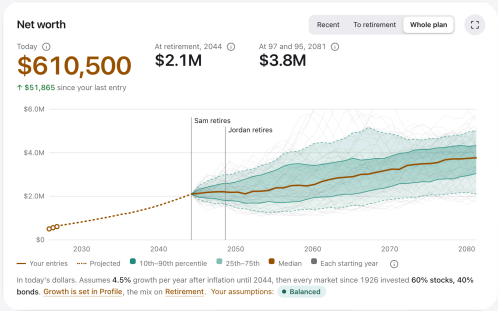

2 Your balances, by date

Type your balances each month or quarter. Each update is a point on your net worth line, and the plan starts from the latest. No bank logins.

3 Tested against history

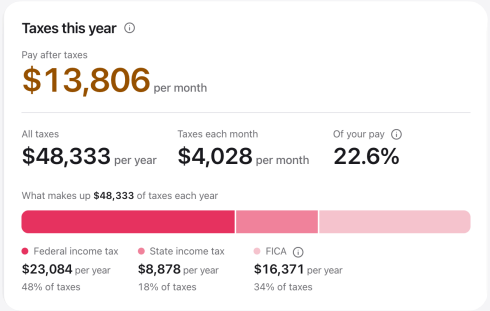

Chance of success replays your plan and your withdrawal strategy through every starting month since January 1926.

HIGHLIGHTS

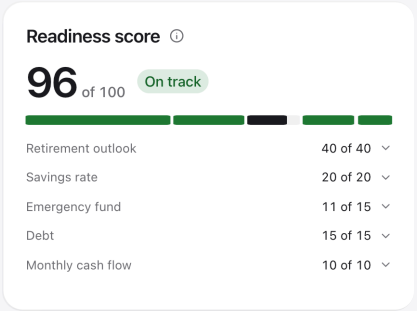

Dashboard

Your net worth from your own entries, projected to retirement, then run through every market since 1926.

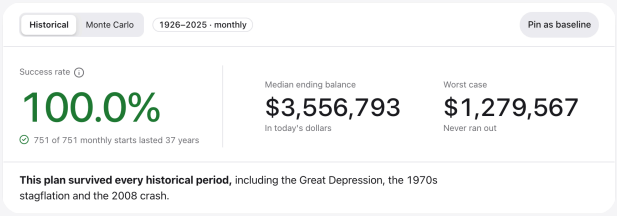

Taxes & Savings

Federal, state and FICA tax on your own pay, and where the rest goes.

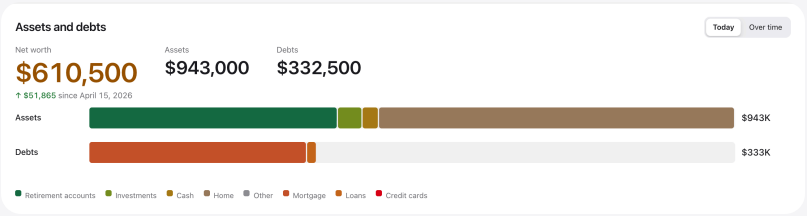

Readiness score

Out of 100 across five areas, each with what would raise it.

Retirement

The Drawdown Simulator on your plan, with 15 withdrawal strategies.

Net worth

Nine kinds of assets and five of debts, by date, with when each dollar can be spent.

EVERY TAB

Profile · every answer, editable in place

Dashboard · where do I stand today?

Plan summary · the whole plan on one page

Net worth · what we own and owe, over time

Your home · what owning, or renting, costs

Income · pay, the match, Social Security

Spending · where does the money go?

Taxes & Savings · tax, and where the rest goes

Year by year · every year to retirement

Calculator · what your savings grow to

Retirement · will the money last?

Tools · all 14 tools, your numbers filled in

Next steps · what to do next, ranked by effect

Learn · 66 lessons with your own numbers

About · how every figure is worked out

Print your plan. A report of 14 standard pages, plus up to 7 that fit your situation, built in your browser.

A monthly check-in. An email when your balances are 30 days old, with no figures in it. One click turns it off.

On your phone. A bottom tab bar and charts you read with a finger. Every tab works on a phone.

Free account: sign in with Google or a code sent by email. An educational tool, not financial or tax advice.
