RetCalc

retcalc.app

The complete retirement planning toolkit.

A calculator, two guided walkthroughs, fourteen planning tools and 66 lessons on saving, withdrawals, taxes, Social Security and healthcare, tested against every market since 1926. Free, private, and no account needed.

14	2	2	66	100 yrs	$0
planning tools	calculators, Basic and Advanced	guided walkthroughs	lessons in Learn	of monthly market history	no ads, no account

1 One household, every tool

Ages, state, savings, income and spending are entered once and fill in everywhere; results carry from tool to tool.

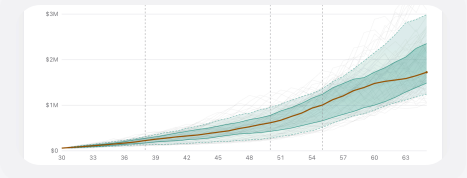

2 Tested against history

Plans are replayed through every real starting month since January 1926, the Depression and the 1970s included.

3 Private by default

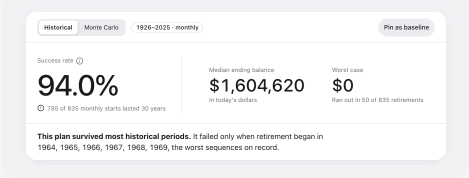

Every calculation runs in the browser. An optional account keeps a household, scenarios, Guide answers and lessons read in step across devices.

HIGHLIGHTS

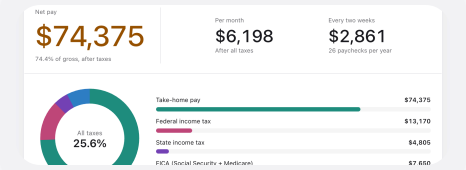

Advanced: Changes ahead

Children, a raise, saving less or an inheritance, from an age on, each shown in the balance at retirement and tested against history.

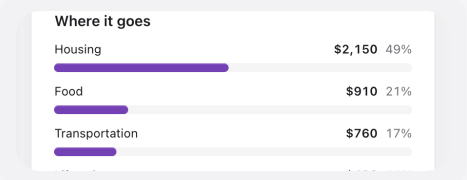

Drawdown Simulator

15 withdrawal strategies replayed through every retirement since 1926, and ranked at equal risk.

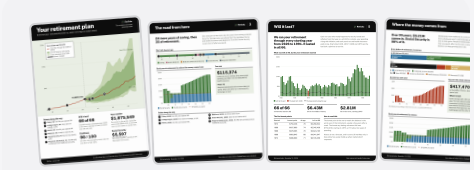

Income Tax

2026 federal, state (50 + DC) and FICA tax, or a retirement mode that stacks withdrawals, gains and Social Security.

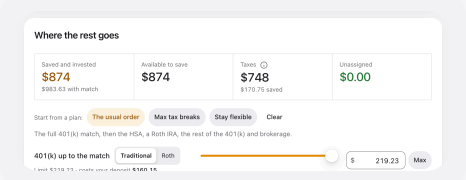

Budget and Paycheck

A budget, then a paycheck that pays it, with taxes rerun live as money moves into the 401(k), HSA and IRA.

Retirement Readiness Guide

A check-up that scores readiness out of 100 and prints a report of about a dozen pages.

Paycheck to Retirement

Gross pay to a retirement projection in five steps and about fifteen minutes.

EVERY TOOL

RETIREMENT INCOME

- **Drawdown Simulator** · Will my money last?
- **Retirement Plan Optimizer** · Which plan leaves me the most?
- **Social Security Calculator** · When should I claim Social Security?
